

TECHNICAL COOPERATION PROJECT SUMMARY

PROJECT TITLE	TO CONTRIBUTE TO DEVELOPING NATIONAL CAPACITIES TO ACHIEVE THE 2015 NATIONAL CHILD LABOR REDUCTION TARGETS AND THE ILO GLOBAL TARGETS FOR ENDING THE WORST FORMS OF CHILD LABOR IN CAMBODIA BY 2016.
REGION/COUNTRY	SOUTHEAST ASIA/Cambodia
PROJECT DURATION	September 30, 2008 – September 29, 2012
FISCAL YEAR & FUNDING LEVEL	FY 2008: USD 4,310,000
PROBLEM TO BE ADDRESSED	In Cambodia, child labor is a common phenomenon. Extensive rural poverty, including food and income shortages, has led to increased migration to urban and border areas for work in high growth and export industries. Children work under hazardous conditions in small industries such as brick-making, salt farms, fishing and fish-products processing, as well as in the informal sector as domestic workers and porters. Cross-border migration to Thailand and Vietnam for work has also increased children's risk for trafficking for sexual and labor exploitation. In urban areas, children work in restaurants, construction, and tourism, in addition to working as street vendors and scavengers.
TARGETS	This project targets 7,200 children for withdrawal and 4,800 for prevention from the worst forms of child labor (WFCL), including trafficking and hazardous work in brick-making, portering, salt production, fishing, and urban child labor. The project will work in 15 provinces: Sihanoukville, Kampot, Kep, Phnom Penh, Kampong Cham, Siem Reap, Banteay Meanchey, Koh Kong, Kandal, Svey Reang, Krachie, Rattanakiri, Kompong Thom, Kampong Channam, and Battambang.
PROJECT OBJECTIVES	Reduce the number of children engaged in the worst forms of child labor in Cambodia. Intermediate objectives include: <ul style="list-style-type: none">• Improve national and provincial policy frameworks to support the achievement of National and ILO targets for reducing child labor by 2015 and ending WFCL by 2016;• Strengthen the capacity of national institutions and key stakeholders; mobilize networks at the provincial and national levels to effectively combat WFCL and increase public awareness

To Contribute to Developing National Capacities to Achieve the
2015 National Child Labor Reduction Targets and the ILO Global Targets for
Ending WFCL in Cambodia by 2016,

TECHNICAL COOPERATION PROJECT SUMMARY

SUMMARY OF ACTIVITIES

- Provide training on ways to build linkages between institutions implementing the National Plan of Action to eliminate child labor;
- Enhance national and provincial capacity to engage, plan, and coordinate efforts between government and NGOs;
- Raise awareness on child labor in 15 provinces through print, audio, and visual media;
- Conduct and support research studies on child labor to improve the knowledge base on the problem;
- Support networking among employer and worker organizations to advocate for combating child labor and safe migration for decent work;
- Select a target group of working children and those at-risk and provide educational or vocational training and other support needs;
- Strengthen and expand child labor monitoring systems in existing and new provinces and municipalities;
- Pilot the creation of child labor free zones through the country to identify and withdraw child laborers, and to prevent at-risk children from trafficking and child labor; and
- Prepare good practices and intervention models for monitoring, evaluation and research, and share information with a broad audience of policy makers and stakeholders.
- As of March 31, 2010, 2,719 children have been withdrawn or prevented from exploitive child labor as a result of this project.

GRANTEE

International Labor Organization's International Program on the Elimination of Child Labor (ILO-IPEC)

IMPLEMENTING PARTNERS

Ministry of Labor and Vocational Training; Ministry of Education, Youth and Sports; Ministry of Women's Affairs; Ministry of Information; Ministry of Interior; Ministry of Planning; National Sub-committee on Child Labor; Provincial/Municipal Departments of Labor and Vocational Training; Employers and Workers Organizations; and NGOs yet to be determined
